# **WINNIPEG**

---

Has sixteen Chartered Banks.

Winnipeg Bank clearings for 1905. \$369,868,179.

Has five Chartered Colleges and a University.

Is the Financial, Educational and Wholesale Business Centre for Manitoba and the Northwest Territories.

Has no competitor within 500 miles.

Is the centre of the greatest wheat-growing and stock-raising country in the world.

Manitoba wheat average for the past ten years, 21.7 bushels to the acre

152,000 new settlers arrived in 1905, including 50,000 Americans.

## INTERESTING FACTS ABOUT THE CANADIAN NORTHWEST

---

Greatest wheat producing country in the world.

Unrivalled possibilities in mixed farming.

Millions of acres of choice land still available.

Thousands of industrious settlers can establish comfortable homes at once.

Unequalled opportunities for investors and manufacturers of all classes.

---

**MANITOBA** is as large as England and Scotland, and the Northwest is larger than any sixteen Western American States.

Fully settled and cultivated this country could supply all the provisions Great Britain requires annually twenty times over.

The country embraces upwards of 200,000,000 acres of highly fertile prairie country.

The man with a family of sons after settling himself can readily settle the sons one at a time on farms around him.

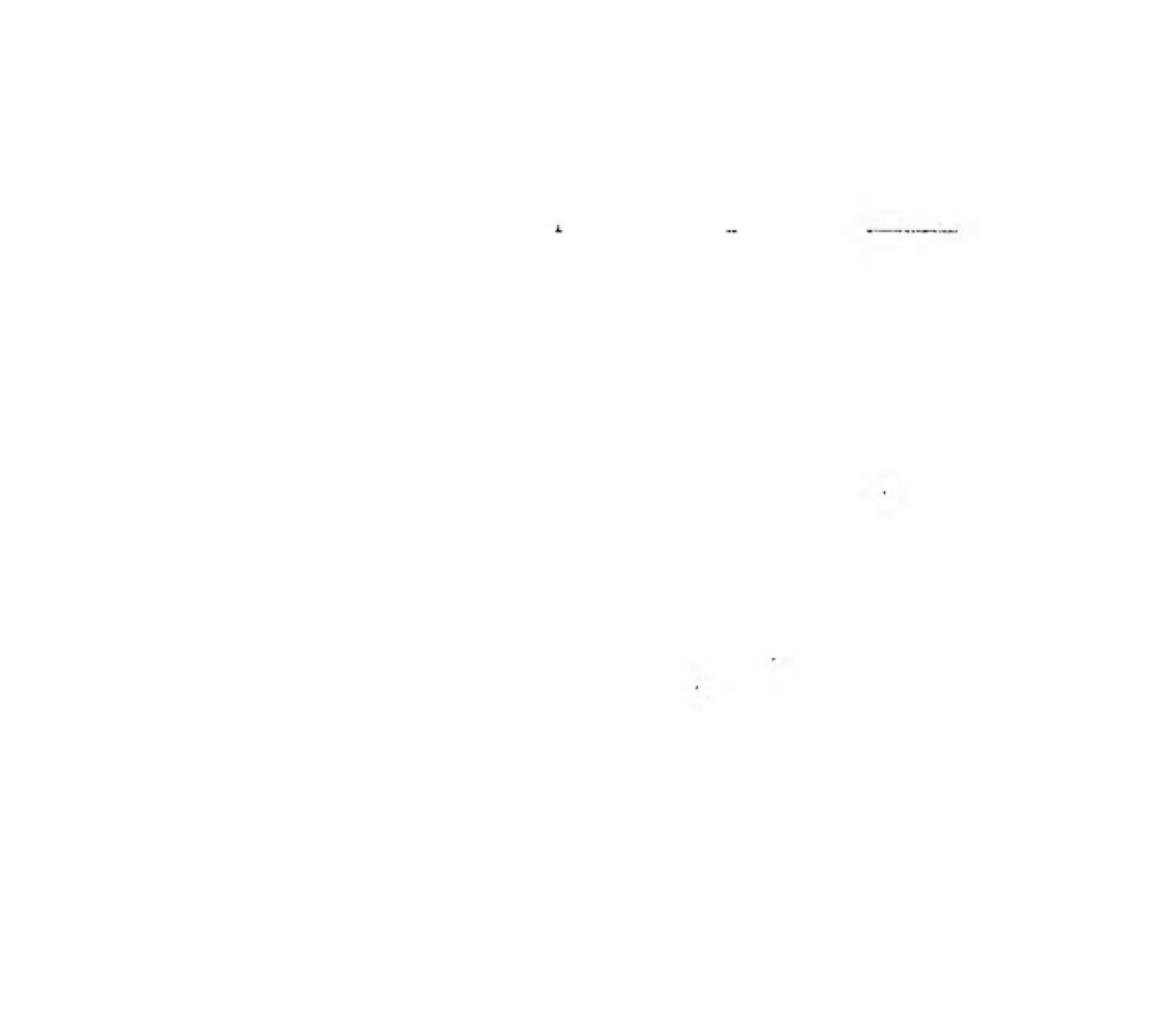

All farm stock do well in the country and the progressive farmer always has herds as well as growing crops—they all make money.

If unencumbered and industrious, a man can begin farming on a small capital, and grow wealthy in a few years.

The western part has the best ranching country in the world, cattle thriving outdoors all winter.

Schools are maintained in all villages where there are twelve or more children.
